Response for data_analyst_CV_template.pdf:

JD Match: 70%

MissingKeywords: ['big data engineering', 'data science']

Profile Summary: The candidate has 15 years of experience as a data analyst with a strong focus on database management, data cleaning, and data analysis. They have a proven track record of assisting in the development and upgrading of database systems and analytical techniques. They are also proficient in using SQL, SAS, and SPSS for data manipulation and analysis. However, the candidate does not have experience in big data engineering or data science, which are essential requirements for the job description.

Response for CV.pdf:

JD Match: 10%

MissingKeywords: ['Banking', 'Finance', 'Data Analysis', 'SQL', 'Python', 'R', 'Tableau', 'Power BI', 'BI tools']

Profile Summary: The candidate is a second year university student seeking a part-time customer service role. Their resume highlights experience in supporting teachers and managing students in an educational setting, as well as a passion for photography. However, it lacks relevance to the job description for a Business Intelligence Intern, which requires expertise in data analytics, banking, and data visualization tools. To improve their chances for this role, they should focus on acquiring these skills and gaining experience in the banking sector.

Response for Nguyen Hoang Phuong - BIA.pdf:

JD Match: 85%
