Job Description: Business Intelligence Intern

Position Title: Business Intelligence Intern
Department: Data Analytics
Location: Ha Noi, Viet Nam
Duration: 3 months

Position Overview:

VCB seeks a motivated and detail-oriented Business Intelligence Intern to join our data analytics team. This internship offers a hands-on experience in leveraging data for strategic decisions in the banking sector. The intern will focus on researching best practices for data utilization in banking and demonstrating the value of data-driven insights to stakeholders within VCB.

Key Responsibilities:

- **Research and Analysis:**

    - Conduct research on best practices for data utilization in banking, focusing on VCB's operational context.

    - Analyze current data practices within VCB and identify improvement areas.

    - Develop case studies and reports on successful data-driven strategies within VCB.

- **Data Management:**

    - Assist in collecting, cleaning, and maintaining large datasets relevant to VCB's operations.

    - Support the development of data models and algorithms for banking processes

    - Ensure data quality and integrity, adhering to VCB's data governance policies.

- **Reporting and Visualization:**

    - Create reports and dashboards to communicate key insights to stakeholders, tailored to VCB's objectives.

    - Use data visualization tools to present insights clearly and impactfully.

    - Develop presentations showcase the value of data-driven decision-making for VCB.

- **Collaboration and Communication:**

    - Work with cross-functional teams within VCB to understand their data needs.

    - Assist in training business unit on data best practices and BI tools.

    - Communicate findings and recommendations to management clearly and concisely.

Qualifications:

- Pursuing or recently completed a degree in Business Analytics, Data Science, Statistics, Computer Science, Economics, or a related field.

- Strong analytical and problem-solving skills.

- Proficiency in SQL, Python, or R.

- Familiarity with data visualization tools like Tableau or Power BI.

- Excellent research skills and ability to synthesize information.

- Strong written and verbal communication skills in Vietnamese and English.

- Interest in the banking sector, especially within the Vietnamese market.

Benefits:

- Gain practical experience in business intelligence and data analytics at a leading Vietnamese bank.

- Work on projects impacting business decisions at VCB.

- Learn from experienced banking professionals.

- Develop a network of contacts within VCB.

- Potential for future employment opportunities based on performance.
